

2. Towards the end of last week, counsel developed a sore throat but continued working on his brief. On Saturday, March 21, 2015, counsel had a very productive day despite the sore throat. However, on March 22<sup>nd</sup> his throat got very much worse and he accomplished very little. On Monday, March 23<sup>rd</sup>, his condition continued to get worse and develop other symptoms. In light of this, he decided he needed to visit his doctor's office. There he was diagnosed as probably having a viral infection. He was instructed to take an over-the-counter medication and check back on March 25<sup>th</sup> to see if the use of an antibiotic is warranted.

3. In light of his current condition, Hall's counsel is seeking a week's extension to complete his brief.

4. Counsel for AIM has essentially completed his brief but each party's brief will reference parts of the other's brief, he needs an extension of time until Hall completes his brief.

5. Defendant does not oppose this motion.
